## A profusion of sweetness!

# MATRICARIA

Commonly known as Chamomile, adorable, little daisy-like or button flowers are bursting with sweet innocence and playfulness. Matricaria is a cheerful filler with immediate color, volume and delicate texture. Matricaria is a flowering plant in the Aster family (Asteraceae).

**FARM FRESH:** Matricaria is typically grown in hoop houses. Matricaria provides a unique and positive soil amendment in crop rotation.

**LASTING:** An amazing vase life up to 10 - 12 days.

**HEIGHT:** 24" to 30"+.

**BUNCHES:** 10+ stems, also available as Consumer Bunches.

**CARE & HANDLING:** Upon arrival cut stems and place into a clean container with fresh, tepid water and fresh flower food solution. (It is especially important to trim stem ends if plant appears fatigued.) Remove any foliage below the water. Keep in cool location out of direct sunlight and drafts. Replenish water as needed.
